

# ***SAP Change and Transport Management***

## **Table of Contents**

**Introduction ... 17**

## **Part 1 - The Big Picture**

### **1. SAP ECC Architecture and Data Components .... 25**

- 1.1 Client/Server Architecture in Brief ... 26
- 1.2 The SAP ECC Database ... 28
- 1.3 SAP ECC Clients ... 30
- 1.4 Questions ... 35

### **2. Realizing Business Processes in SAP ECC ... 37**

- 2.1 Customizing ... 38
- 2.2 Development ... 44
- 2.3 Questions ... 51

### **3. The mySAP ERP System Landscape ... 53**

- 3.1 SAP ECC Client Roles ... 53
- 3.2 Defining an SAP Client ... 59
- 3.3 Multiple Clients in an SAP ECC System ... 63
- 3.4 The SAP Three-System Landscape ... 65
- 3.5 Alternative System Landscapes ... 68
- 3.6 Complex System Landscapes ... 72
- 3.7 Questions ... 84

### **4. Managing Changes and Data in a mySAP ERP System Landscape ... 87**

- 4.1 Transporting Customizing and Development Changes ... 87
- 4.2 Transferring Data ... 99
- 4.3 Copying SAP ECC Systems and Clients ... 107
- 4.4 Questions ... 109

### **5. Setting Up a System Landscape ... 111**

- 5.1 Setting Up the Development System ... 111
- 5.2 Setting Up the Quality Assurance and Production Systems ... 117
- 5.3 System Copy Strategy ... 127
- 5.4 Release Considerations ... 131
- 5.5 Questions ... 134

|                                              |            |
|----------------------------------------------|------------|
| <b>6. Maintaining a System Landscape ...</b> | <b>135</b> |
| 6.1 Implementation Plan ...                  | 135        |
| 6.2 Managing Implementation Projects ...     | 137        |
| 6.3 Transport Management ...                 | 145        |
| 6.4 Business Validation ...                  | 161        |
| 6.5 Support for the SAP Standard ...         | 165        |
| 6.6 Questions ...                            | 171        |

## **Part 2 - Technical Tasks**

|                                                          |            |
|----------------------------------------------------------|------------|
| <b>7. Transport Setup Activities at Installation ...</b> | <b>175</b> |
| 7.1 Specifying the System ID (SID) ...                   | 175        |
| 7.2 Setting Up the Transport Directory ...               | 176        |
| 7.3 Configuring the Transport Profile ...                | 185        |
| 7.4 Activities within SAP ECC ...                        | 198        |
| 7.5 Questions ...                                        | 204        |
| <b>8. Setting Up the TMS ...</b>                         | <b>207</b> |
| 8.1 TMS Terminology and Concepts ...                     | 207        |
| 8.2 Setting Up the Transport Domain ...                  | 213        |
| 8.3 Configuring Transport Routes ...                     | 233        |
| 8.4 Verifying the System Landscape Setup ...             | 249        |
| 8.5 Questions ...                                        | 253        |
| <b>9. Client Tools ...</b>                               | <b>255</b> |
| 9.1 Creating a Client ...                                | 255        |
| 9.2 Providing a Client with Data ...                     | 261        |
| 9.3 Deleting a Client ...                                | 282        |
| 9.4 Table Logging for a Client ...                       | 283        |
| 9.5 Authorization Profiles for Client Tools ...          | 290        |
| 9.6 Questions ...                                        | 292        |

## **Part 3 - Tools**

|                                             |            |
|---------------------------------------------|------------|
| <b>10. Managing Development Changes ...</b> | <b>295</b> |
| 10.1 Development Prerequisites ...          | 295        |
| 10.2 Workbench Change Requests ...          | 307        |
| 10.3 Repairs and Modifications ...          | 321        |
| 10.4 The Object Directory ...               | 326        |
| 10.5 Questions ...                          | 333        |
| <b>11. Managing Customizing Changes ...</b> | <b>335</b> |
| 11.1 Customizing Prerequisites ...          | 335        |
| 11.2 Customizing Change Requests ...        | 338        |
| 11.3 Nonstandard Customizing Activities ... | 351        |
| 11.4 Support Tools for Customizing ...      | 358        |
| 11.5 Questions ...                          | 371        |

## **12. Promoting Change Requests ... 373**

- 12.1 Documenting Change Requests and Tasks ... 373
- 12.2 Unit Testing ... 375
- 12.3 Releasing a Task ... 378
- 12.4 Releasing a Change Request ... 381
- 12.5 Transport Logs ... 391
- 12.6 Versioning for Repository Objects ... 394
- 12.7 Questions ... 397

## **13. Importing Change Requests ... 399**

- 13.1 Understanding Import Queues ... 399
- 13.2 Performing Imports ... 405
- 13.3 Managing Import Queues ... 412
- 13.4 Scheduling Imports ... 418
- 13.5 Monitoring Imports ... 422
- 13.6 Transporting between Transport Groups ... 423
- 13.7 Transporting between Transport Domains ... 425
- 13.8 TMS Authorization ... 430
- 13.9 Questions ... 431

## **14. Technical Insight—the Import Process ... 433**

- 14.1 The Transport Control Program... 433
- 14.2 Using Log Files for Troubleshooting ... 446
- 14.3 R/3 Buffer Synchronization ... 457
- 14.4 Naming Conventions in the Transport Directory.... 459
- 14.5 Understanding Transport Tools ... 462
- 14.6 Questions ... 471

## **15. Maintaining SAP Software ... 473**

- 15.1 Making Manual Corrections on the Basis of SAP Notes ... 473
- 15.2 Implementing Notes with the SAP Note Assistant ... 475
- 15.3 SAP Support Packages ... 495
- 15.4 Support Package Stacks ... 522
- 15.5 Side Effects ... 527
- 15.6 Questions ... 529

## **16. Change of SAP Release ... 531**

- 16.1 Life Cycle of a Productive SAP System ... 531
- 16.2 Change of Release Process ... 534
- 16.3 Modification Adjustment ... 542
- 16.4 Upgrade Strategies for a Transport Landscape ... 552
- 16.5 Further Recommendations for a Change of Release ... 558
- 16.6 Questions ... 569

## **17. SAP Solution Manager ... 571**

- 17.1 Customizing Synchronization ... 573
- 17.2 Change Management ... 588
- 17.3 Questions ... 607

## **18. SAP NetWeaver Development Infrastructure ... 609**

- 18.1 Structure of the SAP Web Application Server ... 609
- 18.2 Overview of the Java Development Process ... 611
- 18.3 Parts of the SAP NetWeaver Development Infrastructure ... 615
- 18.4 Configuration of the SAP NetWeaver Development Infrastructure ... 618
- 18.5 Configuration of the SAP NetWeaver Development Infrastructure ... 626
- 18.6 Developing in the SAP NetWeaver Development Infrastructure ... 637
- 18.7 Transporting Java Projects ... 642
- 18.8 Summary ... 644
- 18.9 Questions ... 645

## **Appendix ... 647**

- A. Creating RFC Destinations ... 647
- B. Transport Profile Parameters ... 649
- C. Selected Transaction Codes ... 663
- D. Glossary ... 669
- E. Further Resources ... 683
- F. Questions and Answers ... 685
- G. The Authors ... 713
